

ABOUT US

The Rittenhouse Women's Wellness Center™ is a first of its kind medical practice offering internal & family medicine, gynecology, nutrition, psychology, and medical and aesthetic skincare exclusively for women in one convenient facility. We are able to provide integrated wellness services which combine medical care with nutrition, psychological counseling, medical and aesthetic skin care. Many of our medical services are covered by insurance.

OUR TEAM

Our team of trained women's wellness specialists include board certified primary care physicians, nurse practitioners; registered dietitians; psychologists; and certified aestheticians. This multi-disciplinary group of women healthcare professionals is conveniently located in one office to provide patients with the care they need.

Our team collaborates in order to provide each patient with an integrated health and wellness plan that is unique to her individual health needs and goals.

OUR SERVICES

At the Rittenhouse Women's Wellness Center™ we provide comprehensive health services for women at our convenient Center City location.

Our services include:

- Primary Care
- Gynecology
- Sexual Dysfunction
- Contraceptive Care
- Medical & Aesthetic Skin Care
- IV Nutrient Therapy
- Nutrition & Weight Loss
- Psychology & Emotional Well-Being

THERMiva®

Reclaim. Restore. Revive.

 **RITTENHOUSE**
WOMEN'S WELLNESS CENTER
adult primary care | gynecology | nutrition
emotional well-being | skin care

RECLAIM. RESTORE. REVIVE.

THIS NON-INVASIVE VULVOVAGINAL REJUVENATION PRODUCES GREAT RESULTS WITHOUT SURGERY. A THOUGHTFUL DESIGN WITH COMFORT IN MIND.

NO SURGERY
NO PAIN
NO DOWNTIME

Start the conversation

THERMIva[®]

THERMIva treatments deliver controlled thermal energy to the desired areas - external (labia) and/or internal (vagina) - using temperature controlled radio frequency energy to gently heat tissue so that women can reclaim, restore and revive feminine wellness without discomfort or downtime

RESULTS CAN LAST FOR
9-12 + MONTHS

TREATMENT TIME:
30 MINUTES

3 SESSIONS OF
TREATMENT IN A SERIES

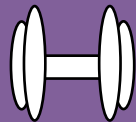

THERMIva treatments are gentle, relaxing and feel like an internal, warm massage. An "S" shape probe is used gently on the external labia to improve appearance. The same "S" probe can be inside the vagina to reduce vaginal laxity, prolapse and incontinence. For orgasm dysfunction the THERMIva treatment includes applying the "S" shape wand to the clitoral area to improve nerve sensitivity and sexual response.

TOP 6 REASONS WHY WOMEN LOVE AND TRUST THERMIva

Increases Vaginal
Moisture

Strengthens Vaginal
Muscles

Improves Painful
Intercourse

Reduces Urinary
Leakage
