Obstetrical Care

RITTENHOUSE
WOMEN'S WELLNESS CENTER

primary care | obstetrics & gynecology
nutrition | psychology | skin care

Our practice of all female physicians and nurse practitioners are dedicated to providing comprehensive and supportive obstetrical care while empowering our patients through education.

Preconception Counseling and Testing

Prior to pregnancy, our providers offer personalized counseling and testing to help you optimize your health so you can start pregnancy on the right track. We offer compassionate care for women with infertility struggles or with a history of pregnancy loss.

High Risk Pregnancies

If your pregnancy is high risk, our colleagues at Jefferson Health are available for your obstetrical care. Jefferson specialists can help you manage or reduce possible complications. Jefferson's multidisciplinary team can provide you with the care you need throughout your pregnancy and delivery. We can continue to be your primary care provider and provide support along the way.

Routine Prenatal Care

Women with access to quality prenatal care have healthier babies and fewer complications. Our knowledgeable providers are up to date on current research and recommendations, and are here to answer your questions and guide you through your pregnancy.

Our clinical collaboration with Jefferson Health allows us to provide our patients with comprehensive obstetric care. With access to Jefferson's OB services and specialists, and the convenience of delivering your baby at Thomas Jefferson University Hospital in Center City, you will receive exceptional, personalized and seamless obstetrical management and care.
